Commit to the premier East-Coast off-road epic event that pushes participants and their machines to the edge. 36 two-person teams. 36 hours proving your skills, ingenuity and determination. With a military theme, participants must rely on strong teamwork & communication to conquer 20+ challenges. Precision driving, vehicle recovery, land navigation, canoeing, shooting. You must think outside the box.

Many "Pro-class" and "Enlisted" participants underestimated the skills & physical conditioning needed in 2016. They vowed to return better prepared, however the 2017 bar has been raised. Are you Driver Enough?

## 777 Expeditions

“ What a trip! The last four days have pushed us to the edge of breaking but not over. At times we felt defeated. But we pushed on. The heat drained us. The terrain tested our equipment. And some obstacles seemed impossible to overcome. But the camaraderie was amazing. We truly formed one big team even though we were competing against each other. This is an experience that has made us a stronger, more capable, and more confident [#overland](#) team.
